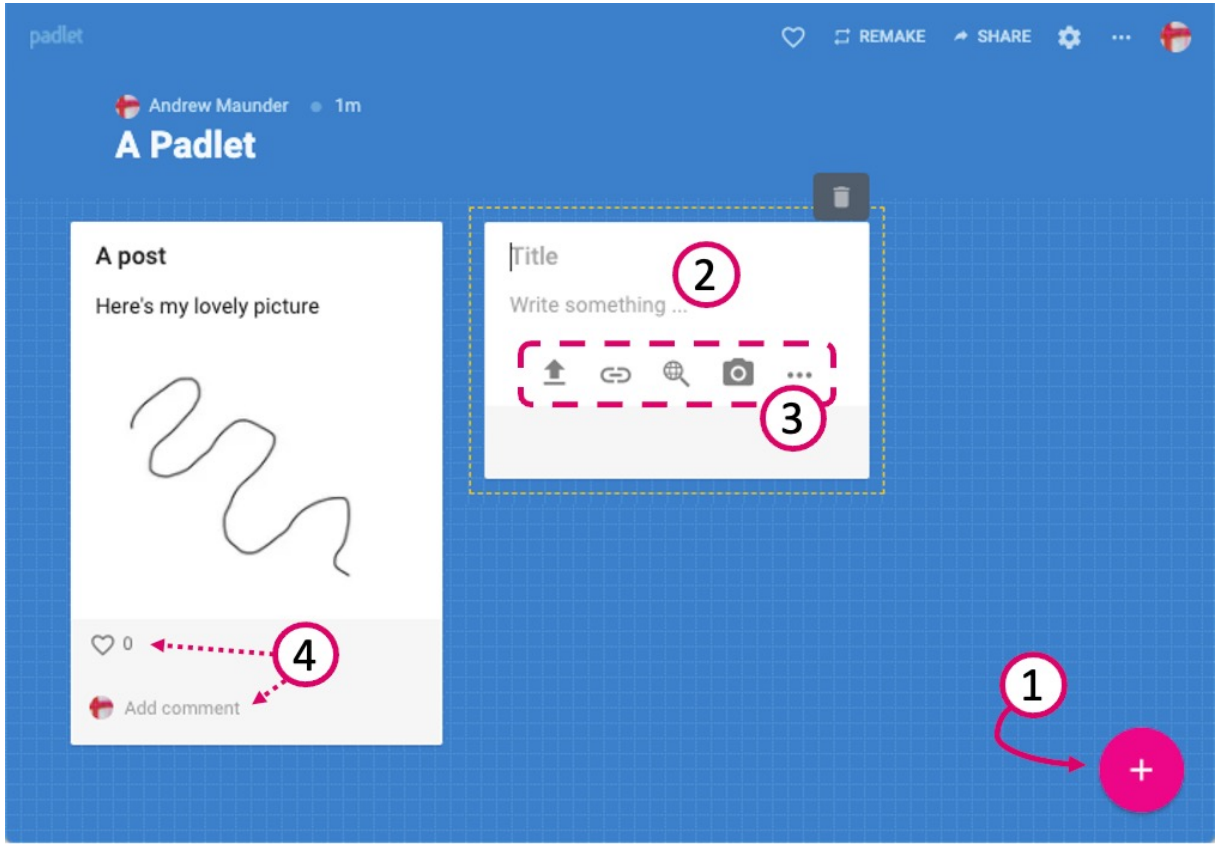
How-to

Use Padlet



1. Create a new post
2. Write your title and text here
3. You can use the tools here to upload files, links and other media. The ⋯ symbol gives you access to a menu with additional options, including a movie recorder, screenshot tool and drawing tool
4. Depending on settings there may be different social functions here such as like, upvote / downvote and stars. There may also be a comment feature.
