

CVR.2022HT Course List

- 1. Course 5574: Lipid metabolism & inflammation in cardiovascular disease**
Course organizers: Sven-Christian Pawelzik, M. Bäck, H. Arnardottir, MedS
Course occasion and credits: Sept 12-16/week 37, 2022; 1.5 credits.
Contact email: sven-christian.pawelzik@ki.se
- 2. Course 5560: Vascular cell biology**
Course organizers: Ljubic Matic and Joy Roy, MMK
Course occasion and credits: Sept 26-Oct 7/week 39-40, 2022; 3.0 credits.
Contact email: ljubic.matic@ki.se
- 3. Course 5307: Clinical trials in heart failure**
Course organizer: Gianluigi Savarese, MedS
Course occasion and credits: *Sept 29-Oct 4/week 39&40, 2022; 1.5 credits.
** The course is organized into two sessions, a campus/digital education session at KI (Sept 29, Oct 3 and 4) and a KI-ESC joint session/symposium during Sept 30 to Oct 2, 2022, which will take place in Sorrento, Italy (preliminary venue: <http://www.royalgroup.it/parcodeiprincipi/it>). A limited number of travel grants may be available for KI doctoral students. The course is organized in cooperation with the Heart Failure Association (HFA), European Society of Cardiology (ESC).*
Contact email: gianluigi.savarese@ki.se
- 4. Course 3120: Flow Cytometry: from Theory to Application**
Course organizer: Nailin Li, MedS
Course occasion and credits: Oct 3-7/week 40, 2022; 1.5 credits.
Contact email: nailin.li@ki.se
(CVR-Aii joint course)
- 5. Course 3117: Endothelial Cell Function and its Relevance in Cardiovascular Disease**
Course organizer: Jiangning Yang, MedS
Course occasion and credits: Nov 7-11/week 45, 2022; 1.5 credits.
Contact email: jiangning.yang@ki.se

6. **Course 5214: Immunometabolism: Implications for Health and Disease**

Course organizers: Maria Forteza de los Reyes and Daniel Ketelhuth, MedS

Course occasion and credits: Sept 12-16/week 37, 2022; 1.5 credits.

Contact email: maria.forteza.de.los.reyes@ki.se

(CVR-Aii-EndoMet joint course)

7. **Course 3173: Clinical Trials in Cardiovascular Medicine**

Course organizer: Gianluigi Savarese, MedS

Course occasion and credits: Dec 8-14/week 49&50*, 2022; 1.5 credits.

** The 1-week course includes 2-day individual/group work (Dec 12 and 13) and 3-day lectures/presentations/exam (Dec 8, 9, and 14). The Course is organized in cooperation with the Working Group on Cardiovascular Pharmacotherapy of European Society of Cardiology/ESC. The course lectures are given by well-known global trialists and national experts in cardiovascular clinical trials.*
