ERC AdG 2024 Lump Sum – General principles

- **No change to the evaluation criteria**
- Minimal change to the evaluation process
- The ERC project will be granted as **one work package**
- **1 single lump sum contribution** for the entirety of the project (broken down by beneficiary if multi-beneficiary)
- Lump sum **request defined by each project** and **capped at funding scheme ceiling** (2.5 M€ + 1 M€ of **additional funding**)
- Proposals include a **budget based on estimated costs** for the project activities
- Budget is **assessed during evaluation** (justification of resources and plausibility of costs)

ERC AdG 2024 Lump Sum – General principles (2)

- Once the lump sum contribution is established, **costs actually incurred are not relevant** (budget table not included in the grant agreement) - **Full flexibility** (transfer between costs categories)
- EU contribution **paid on basis of completion of the work as described in the DoA** (incl. deviations/equivalent tasks). Not linked to successful outcome
- Ex-post **audits only on proper implementation** (not costs) & **compliance with non-financial obligations** (e.g. ethics, procurement procedures, PI time commitments)

Right for **grant portability** remains for Principal Investigators

Proposal Submission - Budget

Budget must only include costs estimates that are:

- **Eligible** (same eligibility conditions as actual costs)
- **reasonable, non-excessive** costs
- in line with the **beneficiaries' normal practices** (Declaration 10)

‘For Lump Sum Grants with a detailed budget table: We understand and accept that the EU lump sum grants must be reliable proxies for the actual costs of a project and confirm that the detailed budget for the proposal has been established in accordance with our usual cost accounting practices and in compliance with the basic eligibility conditions for EU actual cost grants (see AGA - Annotated Grant Agreement, art 6) and exclude costs that are ineligible under the Programme. Purchases and subcontracting costs must be done taking into account best value for money and must be free of conflict of interest.’ This tick box is mandatory for all lump sum calls of the European Commission family.

Changes to the submission forms - Budget table (Person-Month per staff category)

Proposal evaluation – Evaluation of resources & costs requested by applicants

No change to the proposal Part B1 or Part B2 templates as a consequence of the change in funding model – changes only as a consequence of the general changes of ERC WP 2024 as for StG and CoG – no change to the evaluation criteria!

Resources needed for the project & **plausibility of costs estimates** are assessed during the evaluation

Assessment of costs estimates (i.e. reasonable and non-excessive) **only at evaluation** to define the lump sum contribution (sound financial management):

- **eligibility** of costs
- **reasonable, non-excessive** costs

Proposal Evaluation – ERC Dashboard (Personnel Costs)

ERC Dashboard for personnel costs will be made available for applicants and panel members

In line with RTD Dashboard, except:

- Based on **ERC historical data** - actual personnel costs paid since 2018 (to be updated for each Advanced Grant call)

Displayed by Country and Staff Category

Reporting/payment

- **80% prefinancing to ensure cash-flow**
- **1 scientific mid-term report to assess progress and deviations**
- **1 single payment at the end of the project**

ERC Lump Sum funding – Reporting/payment (2)

Lump sum fully paid when all the work has been carried out (as described in the DoA), and also if

- All essential tasks completed, and/or
- Equivalent tasks have been carried out, and/or
- Deviations have been duly justified.

Otherwise, partial completion:

Lump sum **paid partially** in line with the degree of completion as declared by the PI/PI at the end of the project (contradictory procedure)

ERC Lump Sum funding – Ex-post Audits

Only on proper implementation (not on costs) & compliance with non-financial obligations (e.g. ethics, procurement procedures, PI time commitments)

Keeping records:

- Technical documents
- Publications, prototypes, deliverables
- Documentation required by good research practices (e.g. lab books)

Document proving implementation in line with DoA

ERC Lump Sum funding - simplifications

Major reduction of administrative burden:

- Remove all obligations on costs reporting (incl. personnel costs)
- No more requests for time-sheets or other document supporting actual costs incurred
- No more financial audits
