Exit poll 2019 – selected results

Dnr 1-284/2020

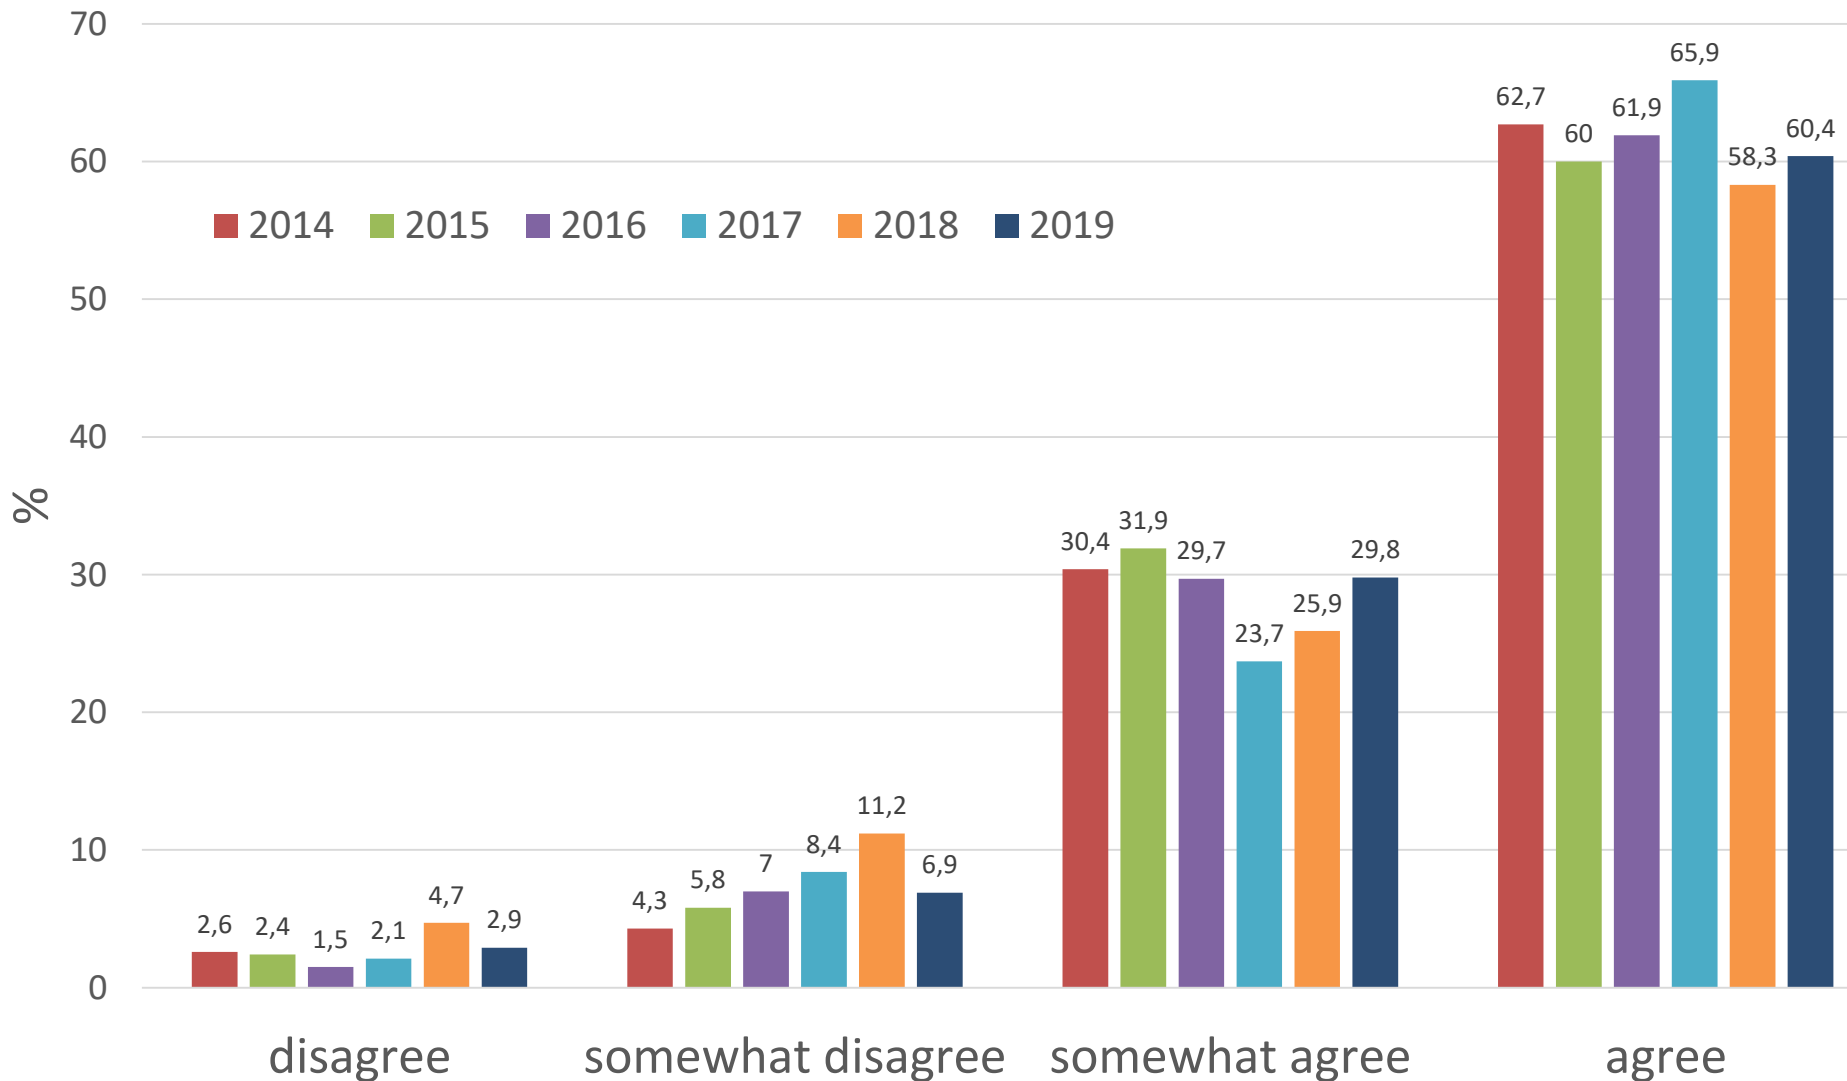

About KI's exit poll for doctoral students

- A questionnaire is sent via e-mail to all doctoral students soon after their public defence
- KI started the survey in 2008 which means 12 consecutive years
- The response rate is high compare to other similar surveys
- The survey are completely anonymous
- Selected results are published on KI web site yearly
- A more substantial report is produced every four or five years
- More information and reports from precious years are found here: <https://staff.ki.se/evaluation-of-the-doctoral-education>
- Please be aware of that the survey reflects the situation as the respondents remember it afterwards

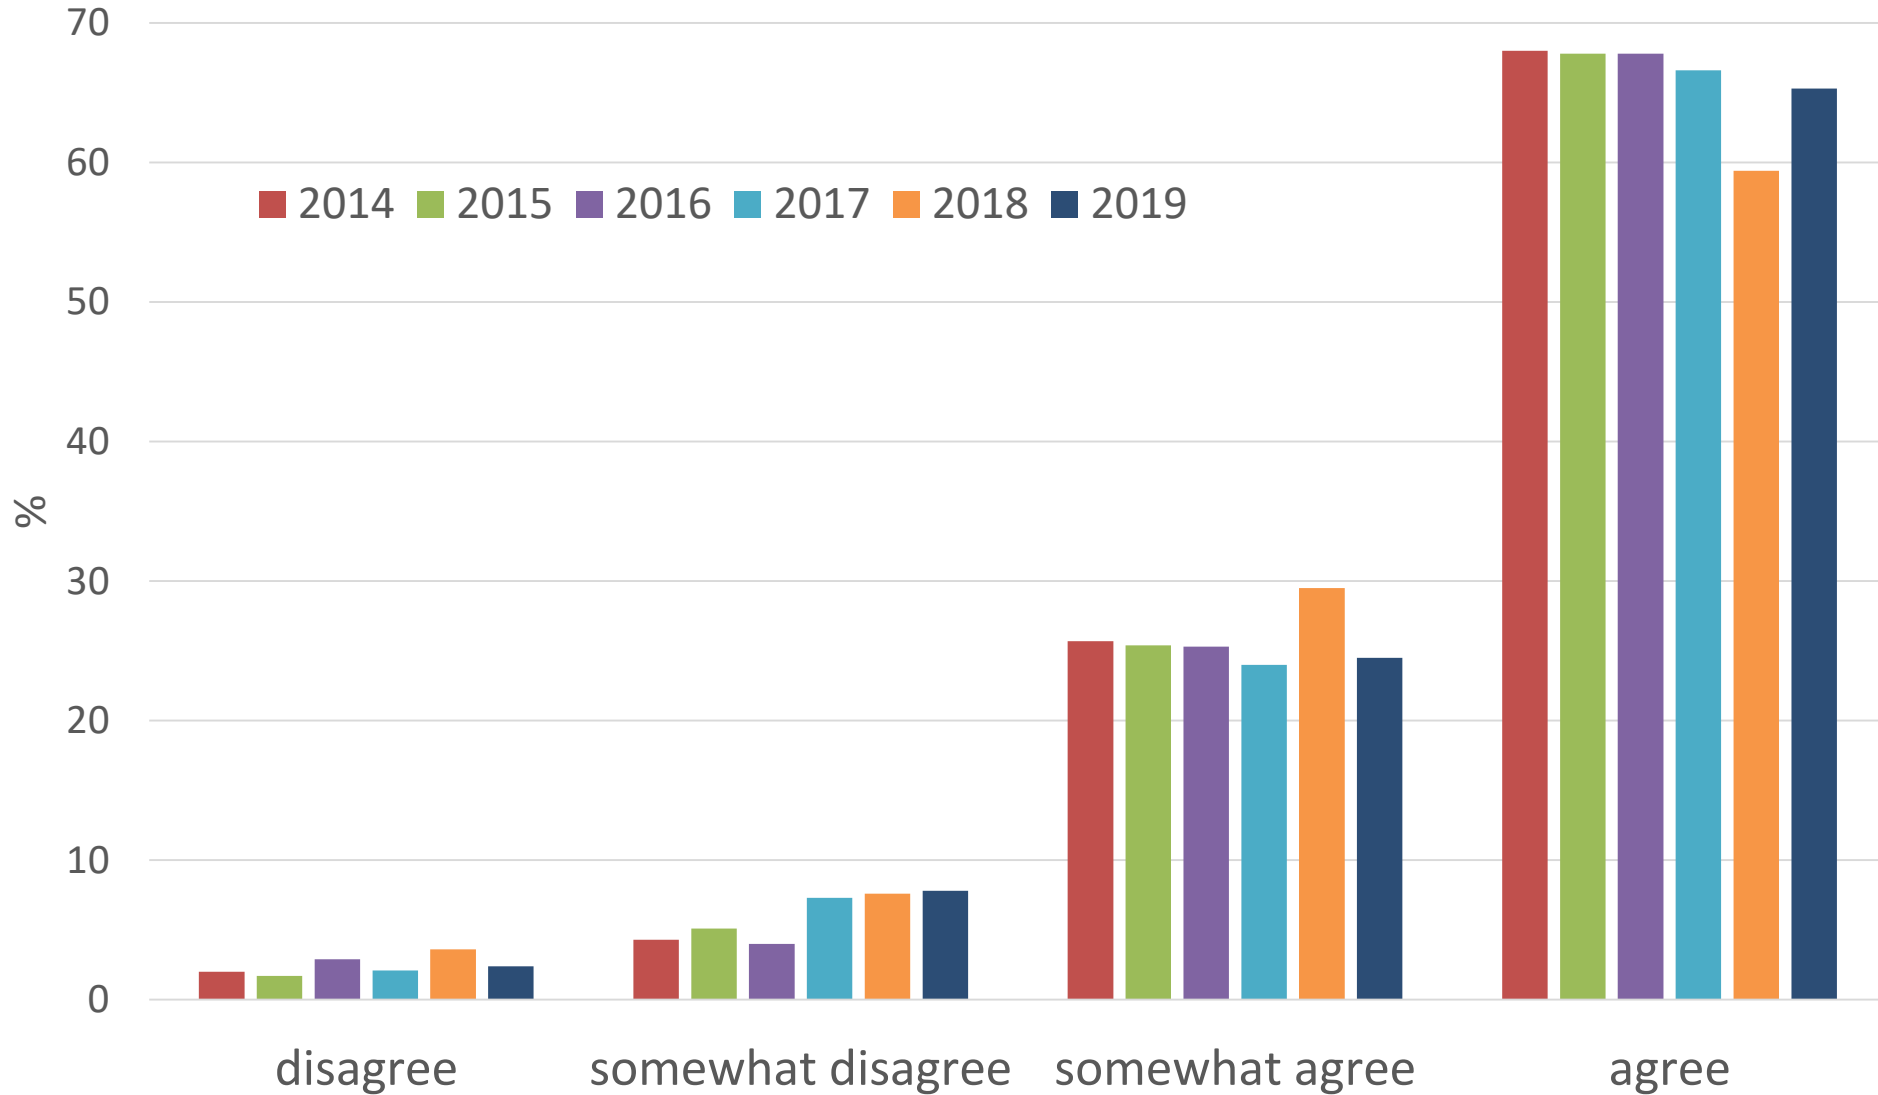

Response rate

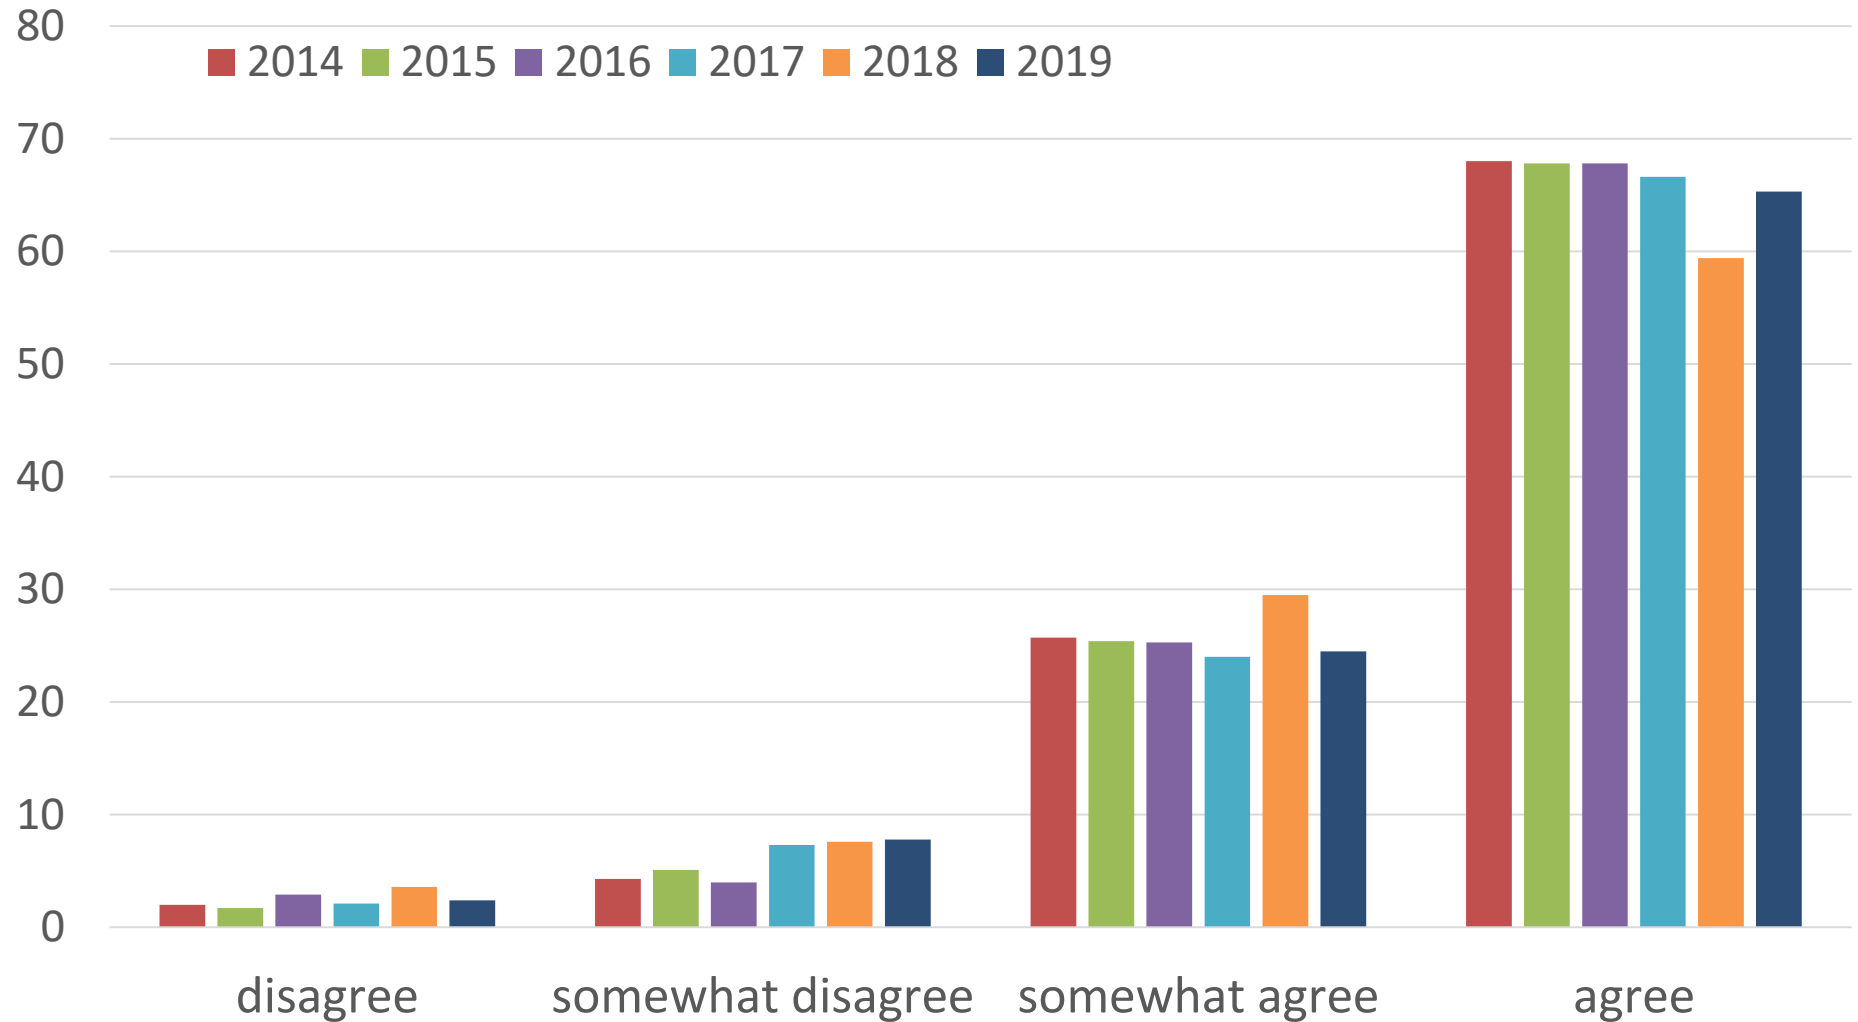

Overall, I am satisfied with my doctoral education at KI

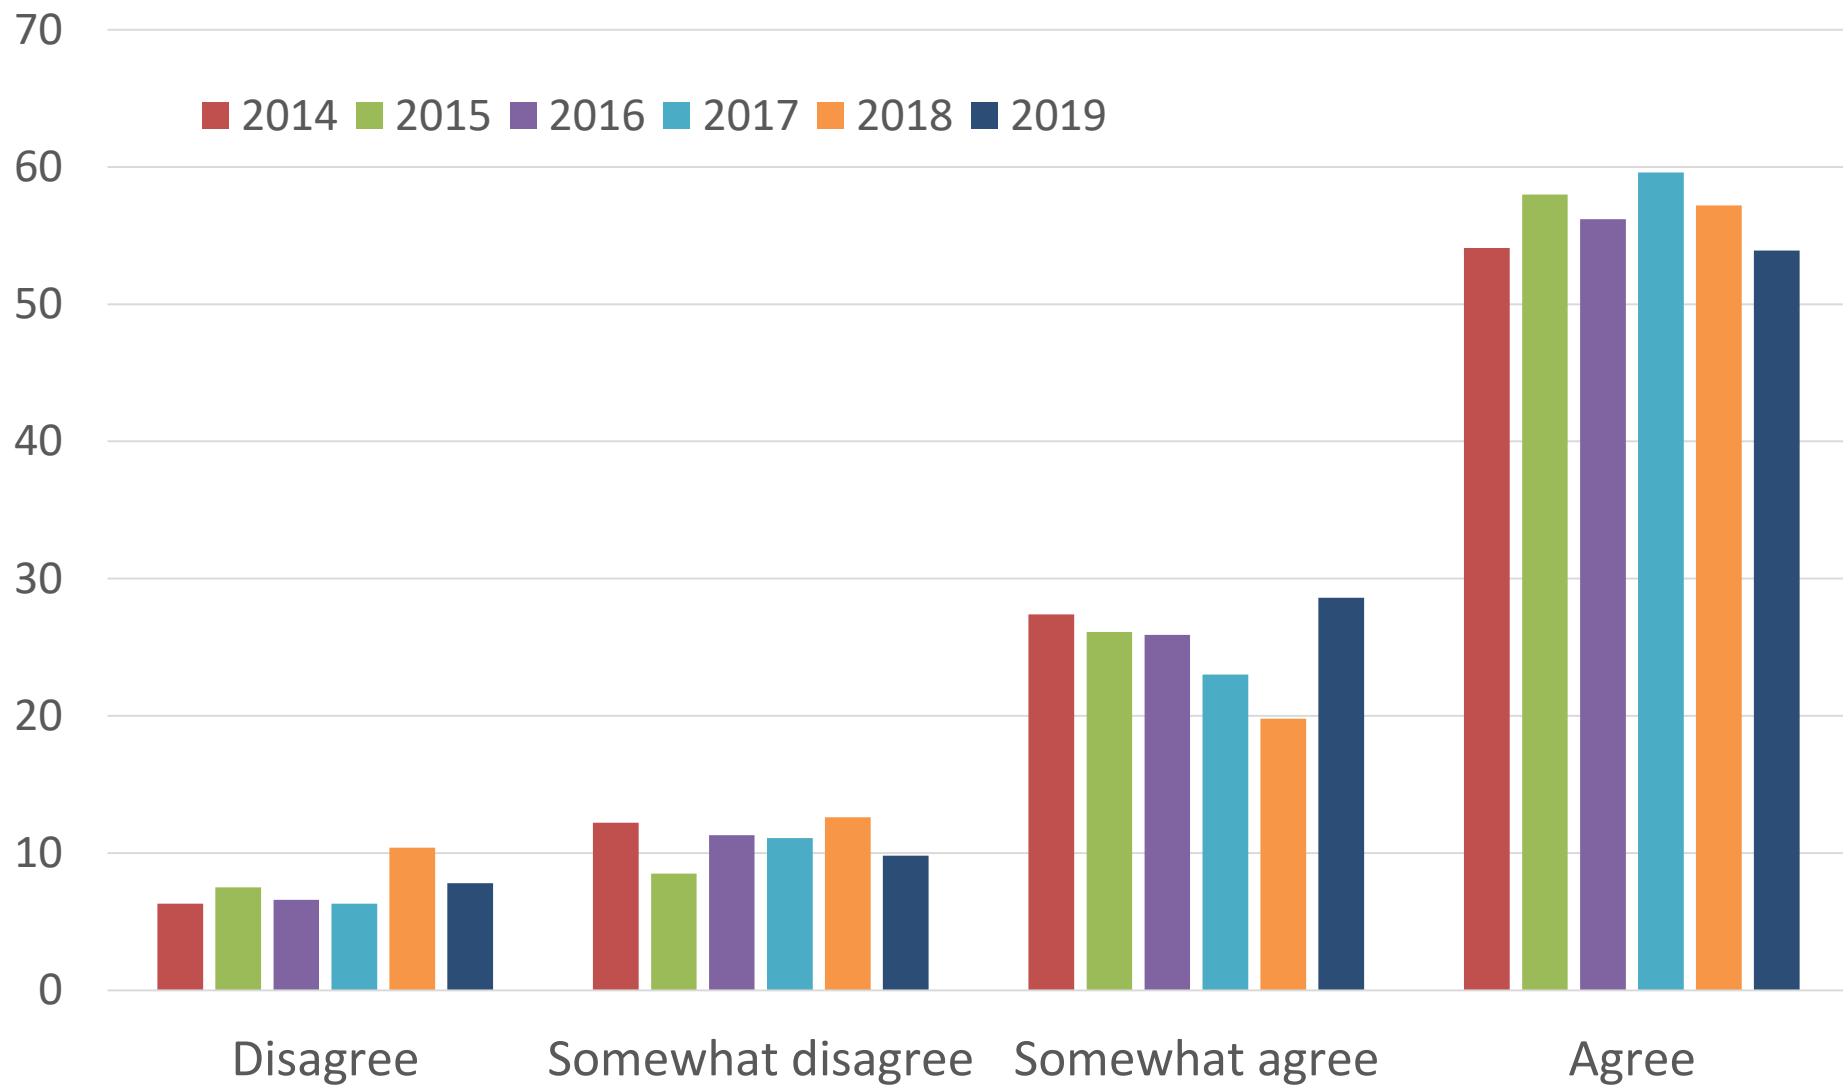

I would recommend KI to prospective doctoral students

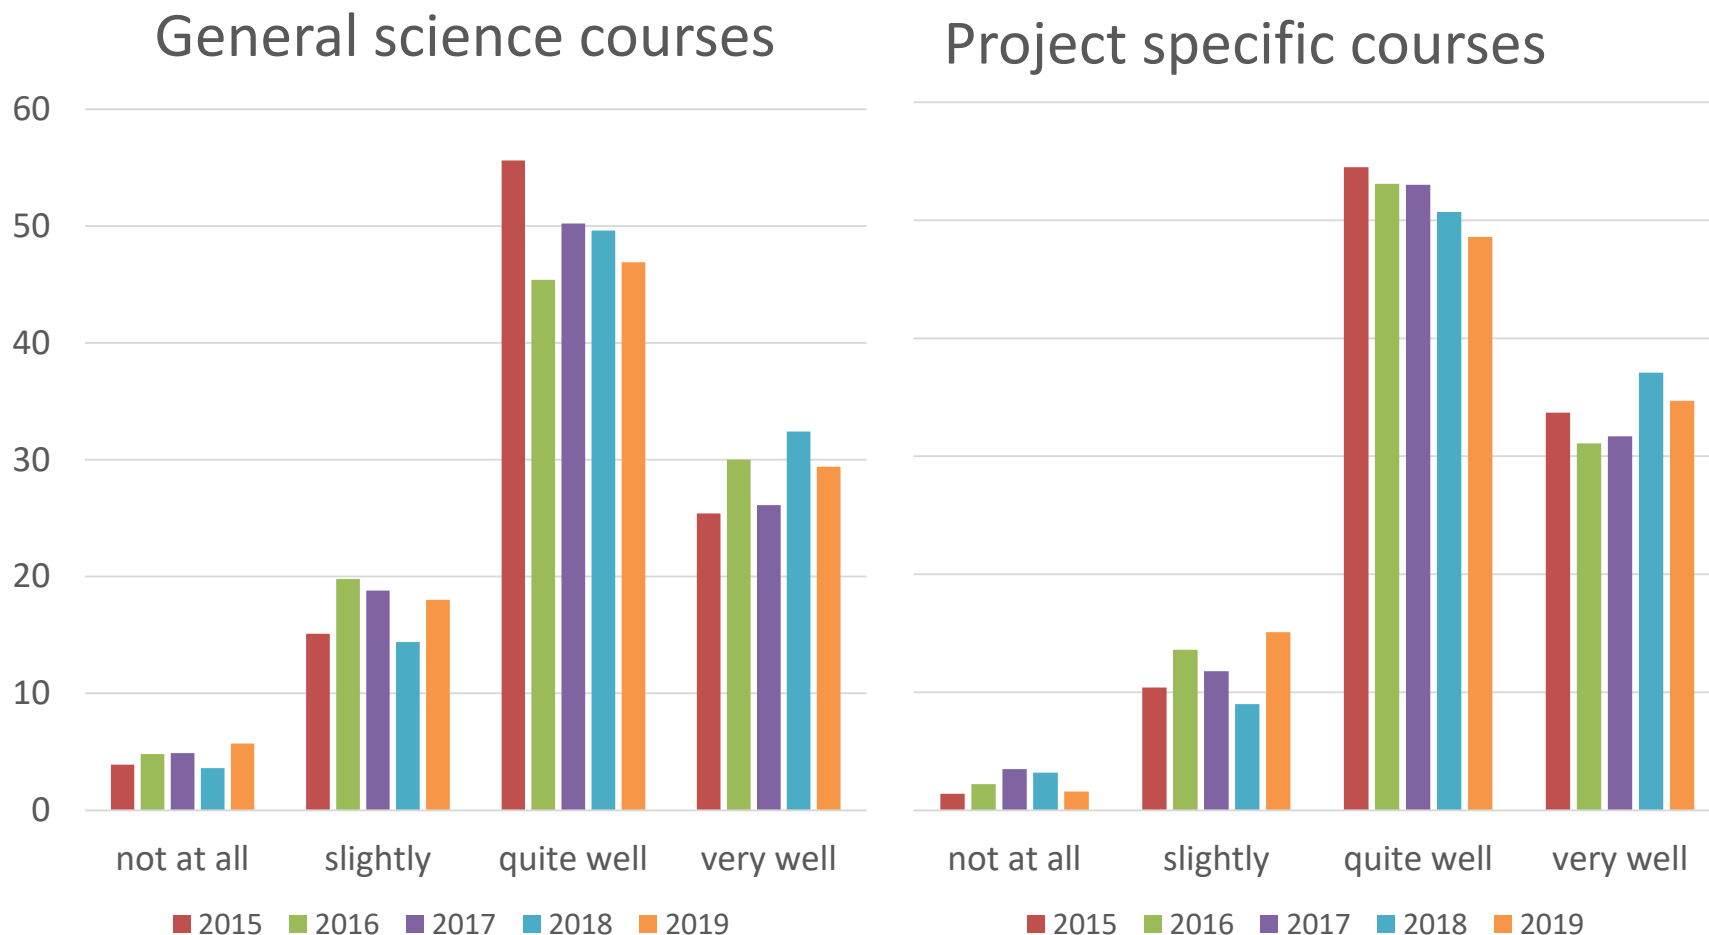

I would recommend my principal supervisor to prospective doctoral students

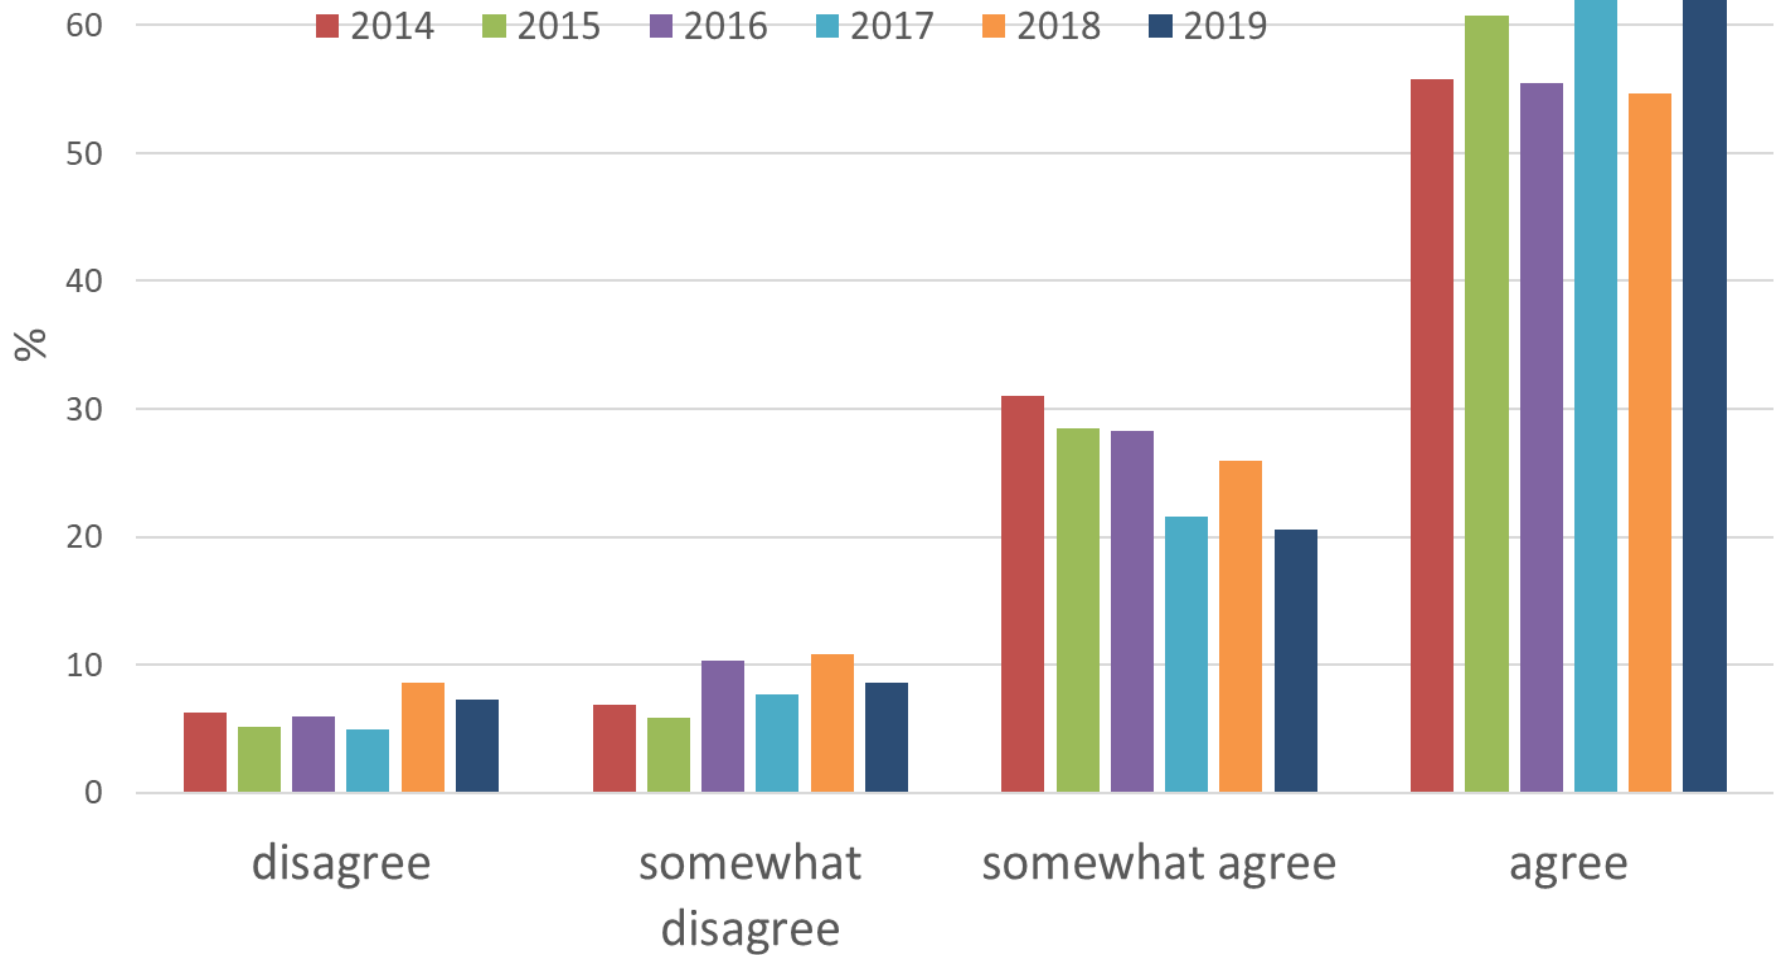

I have received adequate supervision

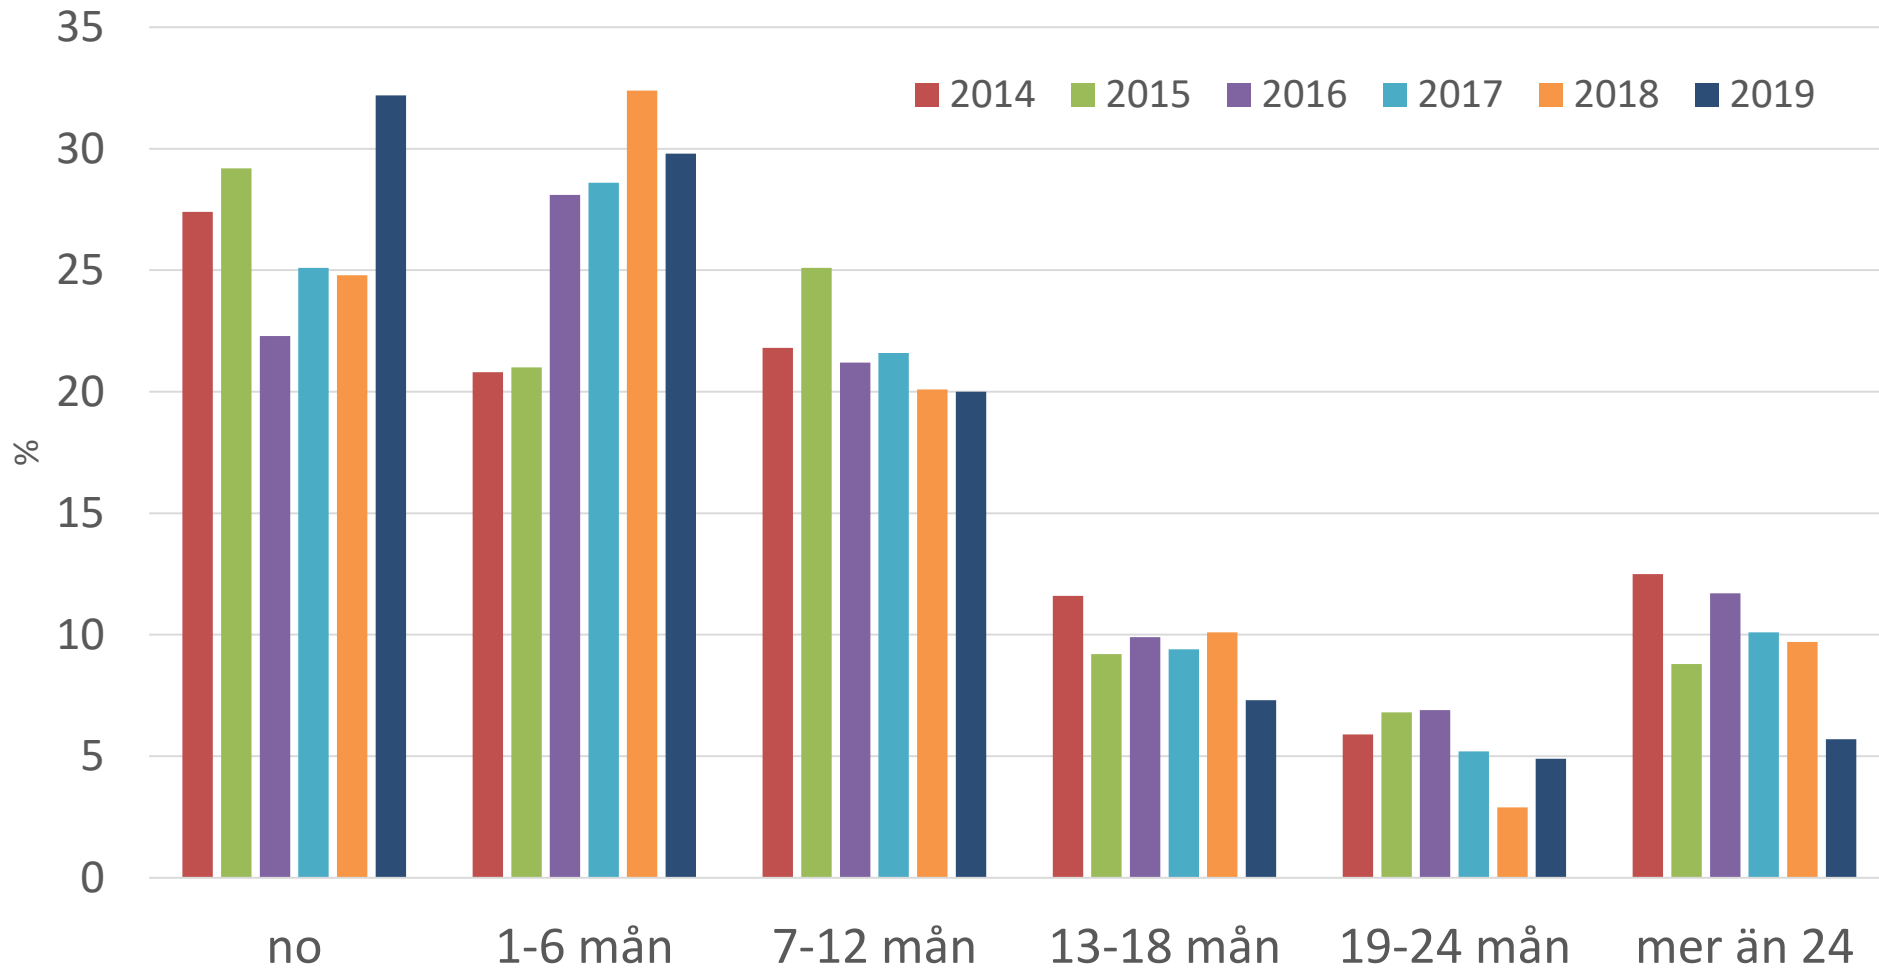

How well do the following statement describe the courses? The quality of the courses was consistently high

I enjoyed a good working environment within my research group

Were you active in research at KI before formal admission to doctoral education (not counting masters education)

During your doctoral education, have you experienced any unequal treatment, discrimination, degrading behaviour and/or harassment (% of all respondents)
